1 ZSSC3170 SSOP20 Package

The SSOP20 package is RoHS-compliant and based on JEDEC JEP95: MO-150. Package dimensions are given in millimeters in Figure 1.1.

1.1. SSOP20 Package Dimensions

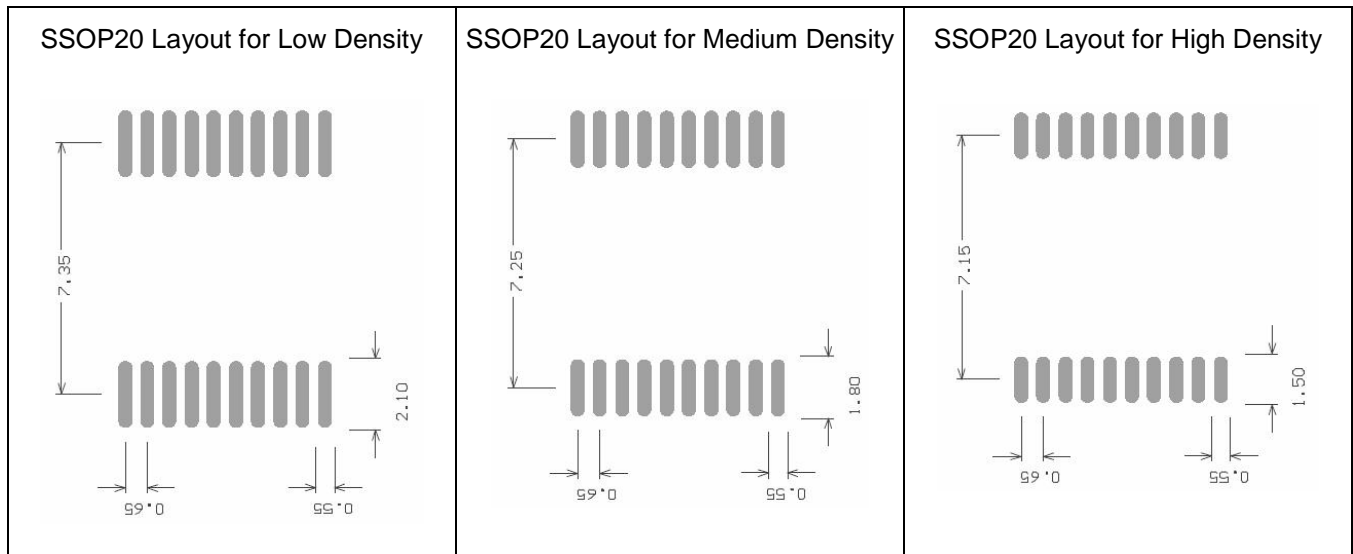

Figure 1.1 Package View and Dimensions

1.2. Recommended Printed Circuit Board Layout – SSOP20 Package

The recommended printed circuit board layout for the SSOP20 package depends on the board density.

2 DFN20 Package

The ZSSC3170 is also available assembled in a DFN20 package (sales codes ZSSC3170EE3R and ZSSC3170EA3R) with wettable flanks. For this package option, the pin assignments are the same as for the SSOP20 package. The DFN20 package is RoHS-compliant.

2.1. DFN20 Package Dimensions

The figure below provides the dimensions in mm for the DFN20 package, which are based on JEDEC MO-229.

2.2. Footprint and Wettable Flank Description

Figure 2.2 Recommended Printed Circuit Board Footprint – DFN20

Figure 2.3 illustrates the general concept of the wettable flank (side plating), which allows automatic optical inspection.

Figure 2.3 Wettable Flank General Concept

Figure 2.4 illustrates a suggested footprint for printed circuit board (PCB) designs using the ZSSC3170 DFN20.

- The exposed area of the landing pattern is 0.25mm for the unit edge.
- The stencil opening excess is about 0.2mm from the landing pattern.

5 Document Revision History

Revision	Date	Description
1.00	April 5, 2009	First release.
2.00	March 31, 2010	Update for revision C.
2.10	July 19, 2010	Change of product name to ZSSC3170. Change to IDT's new documentation template. Completely revised version.
2.20	September 14, 2010	Update for revision D of the ZSSC3170
2.30	April 11, 2013	Update for revision E of the ZSSC3170. Pad layout and SSOP20 drawings added.
2.40	February 12, 2014	Added wafer drawing and defined scribe line.
2.50	December 3, 2014	DFN20 package added. Update for contact information.
2.51	December 10, 2014	Correction for definitions of SDA and SCL in Table 1.2. Update for e-mail contact.
2.60	December 8, 2015	Separation of document into separate technical notes for die dimensions and for package dimensions. Addition of land patterns. Updates for related documents.
	April 1, 2016	Changed to IDT branding.
