DISCLOSURE STATEMENT – CONFLICT MINERALS
Tin, Tantalum, Tungsten and/or Gold sourced from mines in the eastern
Democratic Republic of the Congo (DRC)

The Frank Dodd Act, Section 1502 on conflict minerals sets a disclosure requirement that calls on companies to determine whether their products contain conflict minerals, by carrying out supply chain due diligence, and to report this to the Securities and Exchange Commission (SEC).

Switchcraft includes gold and/or tin as surface plating and/or alloying elements for some of the metal contacts, terminals, components and solders used in many of our products. Based on information from the supply chain, Switchcraft does not, to the best of our knowledge, use conflict minerals in the manufacture of Switchcraft, Inc. products.

Tantalum and Tungsten are not used in Switchcraft products.

The signature below certifies that the statements above are valid and accurate.
